

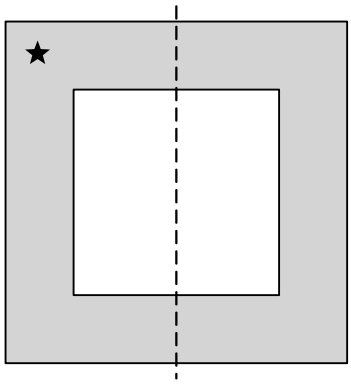
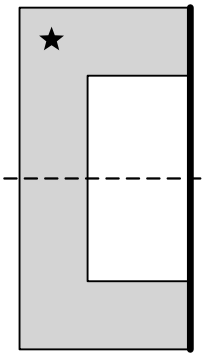
La finestra, amb 3 plecs i 1 tall

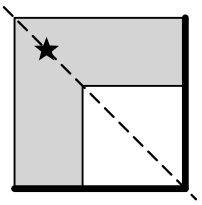
Retalla primer el contorn. Plega sempre cap enrere, amb el dibuix a fora. Fes-ho abans de plastificar.



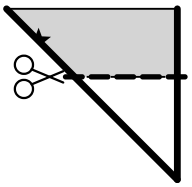
1 Plega per la meitat.



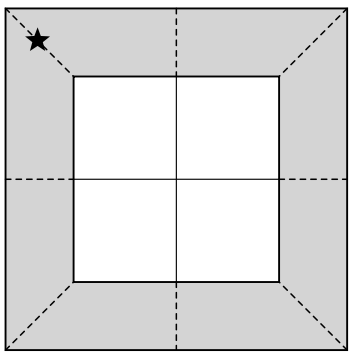
2 Torna a plegar per la meitat.



3 Plega la cantonada de fora en diagonal: una vora exterior sobre l'altra.



4 Un sol tall recte, per la línia de la finestra.



5 Desplega.
